## MABEL PAGE'S SLAYER DIES

### The Electrocuting of Murderer Chas. L. Tucker

Every Avenue of Escape the Law Furnished, Only Led to the Chair.

Boston, June 12.—Chas. L. Tucker was electrocuted at 12:12 this morning for the murder of Mabel Page. Tucker was officially pronounced dead by the prison doctor at 12:19. Three applications of the current were made.

When Tucker arrived in front of the death chair he drew from his trousers pocket a brief statement which he read. The statement was: "I hope that God will forgive me for all the wrongs I have ever done in my past life. I forgive everybody who has wronged me. I am at peace with my Maker. May God have mercy on my soul."

Tucker then sat down in the chair and after the guards had adjusted the straps the warden raised his hand as a signal to the electrician.

After the first application of the electricity Dr. Jos. McLaughlin, the prison surgeon, made an examination and announced that the pulse was still beating. After the current had been applied a second time the surgeon detected a movement of the heart and when the current was applied a third time Tucker was pronounced dead.

The surgeon stated that Tucker was unconscious from the moment the first shock was applied.

The electrocution of Charles L. Tucker marked the final chapter in the history of the murder of Mabel Page at her home in Weston, March 31, 1904, and also marked the close of the most desperate legal battle ever waged in Massachusetts for the life of a convicted murderer. Tucker's case was taken through the legal windings until it reached a hearing in the supreme court of the United States. A decision by the highest court in the land sustaining the ruling of the lower courts did not discourage Tucker's lawyers. A petition to Governor Gull was prepared and circulated throughout the state. In a short time there were over 115,000 names attached to it.

Attorneys for the prisoner went before Governor Gull not only with new evidence, but with a general plea for executive clemency and with affidavits, but they were not successful.

Mabel Page was murdered at her father's home in Weston on March 31, 1904. Her body was found several hours later by her aged father. On a nearby table was found a note, supposed to have been written by Miss Page, stating that she had been called to Boston because of the illness of her brother. It later developed that her brother, Harold, was not ill, and the handwriting on the note and a postal card which was also found in the house figured in the trial. The government contending that the handwriting as shown on the postal card was identical with specimens of Tucker's handwriting.

The police learned that Chas. L. Tucker, an Auburnville young man of roving habits, had been seen in the Page house on the day of the murder. They found Tucker and on taking him to the police station questioned him, but released him. About three weeks afterward the officers searched Tucker's home. There, in an old coat, they found a broken knife blade stained and scarred, the scars indicating that an effort had been made to destroy it by means of a file. A stickpin of peculiar design was also found. It was soon learned that Mabel Page had owned a pin similar to that found in Tucker's coat, and this, together with the fact that the stains on the knife blade were suspected of being those of blood as well as the cause of Tucker's act in breaking the blade into three pieces caused his arrest.

An indictment for murder in the first degree followed. The evidence at the trial was largely of a circumstantial nature and counsel for the defense produced witnesses and maps to prove an alibi, but the pin and knife played more prominent parts than did any witnesses produced by either the prosecution or the defense.

Since Tucker's trial and conviction Edwin Page, the father of the murdered girl, has died, as has Prof. E. S. Wood of Harvard university, who was the expert analyst for the prosecution.

#### TO LIVE UNDERGROUND.

Chicago Engineer Says Theaters and Factories Will Be Subterranean.

Chicago, June 11.—A subterranean age, when theatres will be built underground and the busy hum of factories will resound from far beneath the sidewalk, was forecast by John M. Ewen, an engineer, in an address before the Men's club of St. Peter's Episcopal church.

Mr. Ewen's subject was "Erecting a Chicago Skyscraper," but while he pointed out that the erection of buildings fifty stories high is perfectly feasible, he said it is also probable that in the future more attention will be paid to digging habitable holes beneath the street level.

#### DOCTOR EXPLAINS

His Article in the Medical Magazine About Coffee.

One of the most famous medical publications in the United States is the "Alkaloidal Clinic." In a recent number of which an entertaining article on coffee by a progressive physician and surgeon was published. In explaining his position in the matter this physician recently said:

"In the article in question I really touched but lightly upon the merits of Postum Food Coffee. I have had several cases of heart trouble, indigestion and nervousness where a permanent cure was effected by merely using Postum in place of coffee without any other treatment.

"In my own family I have used Postum for three years and my children actually cry for it and will not be satisfied with any other beverage. Indeed they refuse to eat until they have had the customary cup of Postum and as it is a re-builder and does nothing but good I am only too glad to let them have it.

"To get the best results we boil the Postum at least 20 minutes and it is then settled by adding a little cold water, then the addition of fresh cream makes a beverage I now prefer to very best coffee." Name given by Postum Co., Battle Creek, Mich.

Authorities are agreed that Postum is a wonderfully quick and sure re-builder. Ten days' trial in place of coffee proves it.

**BEN VERMILLION HOME**—Ben F. Vermillion who has been in the employ of the Dorris-Heyman company for several years, has returned from a three months' vacation in Los Angeles, where he went with his family. He had a fine time and is greatly pleased with the southern California metropolis. He gained considerable weight though the moist spring weather a healthful season for a great many. Mrs. Vermillion and the children will remain there for the summer and he says they are getting so far that they can hardly button their clothes around them. Los Angeles is prospering as usual, though since the earthquake there has been a set back in the real estate business. Suburban and residence property continues to change hands quite frequently but there is rather a panicky feeling among investors respecting speculation in valuable business property. It will probably pass away in due season for there is no valid ground for fear rather than elsewhere but the scare that was caused by the earthquake could not help but have a bad effect on the market temporarily.

Miss Helen Ely yesterday returned to the city from Pasadena, where for the past year she has been attending the Throop Institute.

## RIVERS OF CHINA POUR DESTRUCTION

The Great Devastation Will Be Followed by Famine.

Victoria, B. C., June 11.—Mail advices from Hankow, China, show that the great floods of this spring in Hunan caused an appalling loss of life, amounting to tens of thousands. The rivers were higher than in any previous year and swept over the dykes, submerged houses and covered an immense area, in fact, the whole valley of the Siang was flooded, the floods pouring over the dykes in torrents, Siang Tan, a prosperous city, was flooded with water to the second stories of the riverside buildings. This place is the terminus of river steamers thirty miles from Chansha and all business is at a standstill. At Chansha the water flooded through the city gates, flooding out the people, being as high as the treetops in places and a tremendous loss was occasioned.

The river was thick with wreckage and villagers on floating roofs. The foreign missionaries in Siang Tan were heavy losses, though all escaped their boats. None could estimate the loss of life, which was placed at tens of thousands. A famine will follow, for the floods had brought disaster to an immense area of the best rice growing districts of Hunan.

#### A DOOMED CREW.

Eureka, Cal., June 11.—The gasoline schooner Corinthian, Captain Altwater, is in the breakers off Humboldt bar tonight. She was disabled by the sea while crossing the bar and drifted onto the beach. The nine men aboard her are believed to be doomed, the life savers and tugs being unable to get near her.

"Well, sir, what have you got to say for yourself?" demanded Lushman's wife, meeting him at the door. "Come, come now! Say something." "Why, my dear," gurgled Lushman, "I been sayin' somethin' all night. That's what's matter."—Philadelphia Ledger.

#### Dr. Pierce's Favorite Prescription

Is a powerful, invigorating tonic, imparting health and strength in particular to the organs distinctly feminine. The local, womanly health is so intimately related to the general health that when diseases of the delicate womanly organs are cured, the whole body gains in health and strength. For weak and sickly women who are "worn-out," "run-down," or debilitated, especially for women who work in store, office or sewing machine, or bear heavy household burdens and for nursing mothers, Dr. Pierce's Favorite Prescription has proven a priceless benefit because of its health-restoring and strength-giving powers.

As a soothing and strengthening nerve tonic, "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea, or St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the womanly organs. It induces refreshing sleep and relieves mental anxiety and despondency.

Cures obstinate cases. "Favorite Prescription" is a positive cure for the most complicated and obstinate cases of "female weakness," painful periods, irregularities, prolapsus or falling of the pelvic organs, weak back, bearing-down sensations, chronic congestion, inflammation and ulceration.

Dr. Pierce's medicines are made from harmless but efficient medical roots found growing in our American forests. The Indians knew of the marvelous curative value of some of these roots and imparted that knowledge to some of the frontier whites, and gradually some of the more progressive physicians came to know and use them, and ever since they have grown in favor by reason of their superior curative virtues and their safe and harmless qualities.

Your druggist sell the "FAVORITE PRESCRIPTION" and also that famous alterative, blood purifier and stomach tonic, the "GOLDEN MEDICAL DISCOVERY." Write to Dr. Pierce about your case. He is an experienced physician and will treat your case as confidential and without charge for correspondence. Address him at the Windsor Hotel and Surgical Institute, Buffalo, N. Y., of which he is chief consulting physician.

## MUTUAL LIFE MEN NUMEROUSLY INDICTED

Forgery and Perjury Charged Against Gillette and Grannis.

New York, June 11.—Indictments for forgery and perjury against Dr. Walter G. Gillette and for forgery and filing false statements against Robert A. Grannis, both vice presidents of the Mutual Life Insurance company, were returned today by a special grand jury which has been investigating insurance affairs for the past six weeks. The indictments were returned to Justice Scott in the criminal branch of the supreme court, when the jury went before him for dismissal, having ended its labor.

Six indictments were found against Dr. Gillette, five for forgery in the third degree and one for perjury. Mr. Grannis was indicted for forgery and for making false statements to the insurance department, the latter being a misdemeanor.

Both defendants immediately surrendered themselves and were admitted to bail. Dr. Gillette in \$10,000 and Mr. Grannis in \$5,000, their cases being put over until the first Monday in September.

## THE REPUBLICAN'S PATTERN

10 CENTS EACH

### SECTIONAL PRINCESS SKIRT 5328.

To Be Tucked or Shirred and Perforated for Belt.

The princess skirt unquestionably is a pronounced favorite of the hour and is exceedingly graceful and charming made after the style illustrated. In this instance the material is embroidered flouncing and the fullness is arranged in tiny tucks, but the skirt is so designed that it can be utilized either for bordered or for plain material, substituted for the tucks. The flouncing of white batiste makes an exceedingly dainty skirt to be worn with a full blouse of either plain or embroidered material, but the season shows a great variety of bordered stuffs, all of which are effective so treated, whether the edges be scalloped or plain, while again each portion can be cut from plain material if desirable, and trimmed.

The quantity of material required for the medium size is 12½ yards of embroidery 22 inches deep to make as illustrated; or 11 yards of material 21 9 yards 27 or 5½ yards 44 inches wide if plain material is used.

The pattern 5328 is cut in sizes for a 22, 24, 26, 28 and 30 inch waist measure. Cut this out and send with ten cents to The Republican, Phoenix, Ariz., filling out the blank below:
